NANSEN INTERNATIONAL CHILDREN'S CENTRE

September 1981

Dear Phil

Congratulations and many thanks for your wonderful involvement in "Paddle '81" kayak expedition. It was an experience of international goodwill, creating a team of young people on an adventurous activity which resulted not only in an "Historical First" for Jill and Jan, but a serious projection of the International Year for Disabled Persons.

This spirit of comradeship will continue, and through the formation of a youth organisation, "International Paddle Expeditions" to which you are all invited to become members (!) further expeditions can be arranged!

The humanitarian side of the Paddle 81 in raising a capital fund to give socially handicapped children from many countries the opportunity to travel and live in nature would be the main theme of any future expeditions.

"Paddle '82" - where; why; when; your ideas and your views are required immediately if we are to set up a series of guide lines for our involvement.

Best wishes

Enneta

*Would be delighted to have you join
us on any future expedition,*
